Sornia Inwin, the woman who was so shock ingly cut by Ann Brown, on Thursday night was somewhat better yesterday evening, and the chances for her recovery are favorable, although she will be disfigured for life.

Ws were informed last evening that the lown accommodation train, on the Cincinnati, Hamilton and Dayton Railroad, yesterday norning, ran over a man who was walking on the track, near Loveland, instantly killing him. The name of the deceased we could not learn.

SERIOUS ACCIDENT .- A woman named Margaret Rosse, who resides on Freeman street above Ninth, yesterday morning, while engaged in lifting a vessel of boiling water from the stove, was severely scalded about the throat and abdomen. Her wounds are quite painful, and it is feared may prove fatal.

MARRIAGE LICENSES DURING MARCH .- During the month last past, Clerk Toobey issued two hundred and twenty-eight marriage licenses, against one hundred and ninety-eight the preceding month. It would seem to most that the sum total of human misery was already large enough, without any further increase of it in this way; but these figures appear to tell a different story. We commiscrate the whole number, and wish them peace.

BYFECTS OF A DRUNK .- A German, from Mt. Sterling, Ky., named Joseph Shopel, who is stopping at a hotel on Main street, above the Canal, concluded, yesterday, while slightly intoxicated, to ride in a hack to Clifton. While in the vicinity of that place, he attempted to get out of the carriage while it was in motion, and his endeavor resulted in his falling under the wheel, which, in passing over him, broke his arm and alghtly injured his side. He was returned to the hotel, where he is now confined o his room.

REPORT OF THE CLERK OF THE POLICE COURT. From the report of Mr. F. H. Meeker, to the County Auditor, of fines and costs collected by him, as Clerk of the Police Court, in State cases, for the month of March, we take the following statement:

This amount—\$287 88—was collected from thirty-nine cases, while the amount received from city cases was \$252 66.

Cabinet-Makers' Strike.

Quite a large and enthusiastic meeting of the members of the "Cabinet-Makers' Protective Union" was held at Arbeiter Hall yesterday afternoon.

The minutes of the previous meeting were read and approved, when the Investigating Committee stated that, so far as they were able to ascertsin, no change had taken place since their last report, except that in the factory of Weiderich & Jones they found one man at work. His name was handed in, and the Secretary was ordered to place the same upon the

The committee appointed to confer with Mesure. Mitchell & Rammeleberg, reported that they had not been able to arrive at any definite conclusion as to price list, etc., and asked fur ther time.

Mr. Holler stated that he had heard it intimated that the impression prevailed smong the employers that the journeymen would soon "run low" in funds, and would necessarily be ompelled to "give in."

On motion, it was resolved "to support any member of the Union for one, two, three, four, five or six weeks, and longer, if necessary, proyided he was unable to support himself."

The black list was again exhibited, after which the meeting adjourned until two o'clock this afternoon.

BOARD OF CITY IMPROVEMENTS .- The Clerk was directed to prepare and transmit to the City Council ordinances as follows:

To grade and pave with brick the sidewalks on Freeman street, from Liberty to Western row; to assess a special tax in favor of Jones & Bonte, contractors, for paving with bowlders Hatter's alley, from Plum to Western row; to grade and pave with bowlders Spring street, from Hunt to Abigail; to grade and pave with limestone Ballance alley, from Dunlap to Branch street. Also the following resolutions: To authorize Commissioner to have cleared the following culverts, vir.: under Clarkson street, at a cost not to exceed \$2 50; under Vine-street Road, at a cost not to exceed \$10; under Western row and Betts street, at a cost not to exceed \$2 50; also, to have repaired the footbridge over Miami Canal, at Findlay street, at a cost not to exceed \$3 25; also, to have repaired east end of Sixth-street pavement, injured by heavy rains, at a cost not to exceed \$36.

Communications from sundry persons were thus disposed of: From J. W. Scudder, for further time to pave Seventh-street sidewalks, from Baymiller to Freeman street. Recommended to City Council. From Geo. Hatch, for permit to dig a well, for a drain, in Dayton alley, to be covered over by an arch. Referred to Commissioner and City Solicitor.

DEATH FROM INTEMPERANCE .- Coroner Cary, day before yesterday, held an inquest upon the body of a woman named Cunningham, who resided with her brother-in-law in the old Pesthouse building, on Hopkins street, below Freeman. She was about forty years of age, and had for a long time been quite dissipated, so much so, indeed, that her husband had left her and refused to return, since which time she had been living in the family of her sister. A few days ago she became somewhat deranged, and talked incessantly; but she did not seem dangerously ill. On Thursday, however, the sister, who was in the lower part of the house, heard a fall in the room above, and on going up stairs found that Mrs. Cunningham had fallen from the bed, and was lying on the floor. In a few moments she died, and the Coroner, being called upon, held an inquest, which resulted in a verdict of death from intemperance.

PROBABLE ESCAPE OF A FUGITIVE SLAVE. Night before last, between ten and eleven o'clock, as the Newport Ferry-boat left the landing on this side of the river, a negro, having a valise in his hand, rushed from the engine-room and made an attempt to leap from the boat to the landing. Some persons who were near, however, just at that moment spoke to him, and although he might with ease, under any other circumstances, have reached the shore, the caution bewildered him, and he fell into the river. He floundered about for some time in the water, but at length escaped from the embraces of the stream and ran up the bank with an energy which would have led any one to believe that his destination was Canada West.

GORED BY A STREE.-Mr. Jas. Willis, at ettache of the Ohio and Miseissippi Railroad, while engaged in unloading a car freighted with live stock, night before last, was terribly gored by a steer. He was standing by the platform, by which the cattle were landed, with a lantern in his hand, and the steer, seeing the light, rushed toward Mr. Willis, and tossed him with his horns as high as the oar. Mr. W. fell beside the car, and the infuriated beast again darted upon him, and terribly lacerating him in the groin, and otherwise severely injuring him. The wounded man was conveyed to his residence, No. 316 Third street, and we understand his condition is somewhat prearious.

Ws have received complaints from many of our subscribers relative to their not receiving the Press. We have investigated the matter, and discovered that a number of youngsters are in the babit of stealing the Press from the doors and door knobs of our patrons, and we have taken the precautionary measures to put a stop to the acts of these predatory urchins.

JOHN FRANK got gloriously tight night before last, and stole a billiard cue. A policeman "caromed" on John, and he was "pocketed" in the Ninth-street Station-house. Yesterday morning he was beaten by Mayor Thomas, who cored on him a "ten shot."

Our press-room is nightly thronged, from ter to twelve o'clock, by persons desirous of witnessing the wondrous workings of our caloric engine, and the general impression is that the "calorio" is a great institution.

THOMAS LANSING WAS arraigned in the Police Court yesterday upon a charge of stealing a coat, and entering a plea of guilty, was senteneed to the Chain-gang for thirty days.

'Hey diddle, diddle,

The cow jumpt over the moon;
The little dug laughed

POLITICS, as now carried on, are a "diddling" game. There are but few of the common people-the masses-that ever know the secret springs, the extent, the perfection (f) to which the art, or game, of politics is carried to in this.

As to honesty (?) and respectability (?), all parties are about on a par; but for sharp prac ce, it must be conceded the American party stands A, the Democratic B, and the Republioun C. The Republicans, however, when they do "smell a mice," are as fully "up to snuff" as the Americans; but when they do not, they are dull-dull as lead.

In the late Opposition Convention, at Smith tuck a bold, fearful leap, higher than ever Pegasus-leaving the REPUBLICAN CRES-CENT PARTY far down below. The "thing" was done quickly and well-indeed, there was a keen cut to it.

The DEMOCRATIC "CAT-AND-FIDDLE" ARTY was nowhere-was entirely outside of the ring. The sport was confided to the aforesaid COW AND CRESCENT, as is told and seen by the matter-of-fact below.

The Opposition Convention, as is well known, was composed of Republicans and Americans. The comparative strength of these two parties in this city is as nine to two-nine thousand Republican to two thousand American votes. Below we give the result of the pecuniary dvantages to be derived by the respective candidates on the Opposition ticket, of both branches of the party, American and Repub-

lican : AMERICANS. REPUBLICANS. 1,500 Marshal.

Republican offices and perquisites worth ighteen thousand and nine hundred dollars ! American offices and perquisites worth one hundred and forty-seven thousand and four hundred dollars! That is to say:

"The COW jumped over the MOON to the snug little sum of \$128,500!

"The little dog laughed
To see the fine sport,
And the dish ran after the spoon."

BURGLARY - ARREST AND ESCAPE. - The nouse of George Bussem, located on Vine street, above the Hamilton Road, was entered night before last by some person who carried away three or four dollars in money, and a few articles of wearing apparel. He made some noise, however, which awoke the servant girl, who gave an alarm, and the burglar escaped. A short time afterward, between four and five o'clock, the house of Herman Schlimmer, who resides three doors from Bussem, was entered, it is thought, by the same individual; but there he was not so successful, for he got but a small portion of clothing, and awoke the occupants. one of whom followed and caught him on Vinstreet. Here, however, he struck his pursue! with a slung-shot, and knocked him down, thus making good his escape. Schlimmer was, to some extent, injured by the blow, but not

TAKING POISON BY MIRTARE .- A man named Fred. Misson, who boards at one of the vilalnous drinking-houses on the Boulevard de Sausage, near Broadway, and has of late been very much dissipated, arose night before last to take a drink, but instead of getting hold of the bottle which contained his liquor, he seized one which contained a quantity of diluted corrosive sublimate. Fortunately, the mistake was soon discovered, and a physician sent for, who administered the usual antidote. The patient is tetter, and will likely recover.

SAD AFFAIR .- A gentleman named David Bebb, almost sixty years of age, who is stopping with a relative on Third street, below Mill, yesterday, in lifting some very heavy weight, burst a blood-vessel. Judging from the loss of blood, and the feebleness proceeding therefrom, his friends have no hope that he will recover, but already moure him as one lost to them forever.

SACRED THOUGHT .- To-morrow, the third of April, reminds us of that important historical event-the crucifizion of Jesus Christ-which occurred the third of April, Anno Domini 33.

AMUSEMENTS.

THE OPERA -- Verdi's famous opera, Ernoni, was presented last night to a very good housethe evening being set apart for the benefit of Mad'lle Parodi-the beneficiary appearing in her great role of "Elvira." Econni is one of the finest pieces put on the stage. The instrumentation and vocal music have much energy, the great fault of monotony having been overcome by Verdi in the production of this opera. The music is tragic and expressive of the plot. Mad'lle Parodi was well supported by Signors Junea, Barilla, Mr. Squires and troupe.

This P. M. at two o'clock will be repeated the grand Morinee, so successful on last Saturday. The punctilio of full evening dress is doffed, and the demi-toilette substituted, rendering those day operas largely attractive. & Nixon's, the AMERICAN "COW" PARTY | The cast for this afternoon is excellent and strong. Mad'lle De Wilhorst enacts "Lucia" in the well-known opera of Lucio Di Lammernoor-and Mad'lle Parodi will appear in Donnizetti's great work, Lucresia Borgia, sa "Lucrezia." The terret in the fifth scene of the third act of this opera is replete with rich, melodious music. Borgia is a favorite, not only because of its fine music, but its vigorous acting and striking situations.

On Monday evening Mosact's famous opera of Don Gioranni will be given, regarded by the musical world as the greatest of operas, and must always excite enthusiasm. We bespeak for the attendance on Monday and Tuesday nights crowded gatherings of the beauty and fashion of our city.

PREL'S CAMPBELL MINSTRELS .- The Camp bells give their last concert this evening, on which occasion Matt Peel, the laughter-provoking and migth-creating individual, and, withal, the most, comical and amusing representative of the "culled pusson" in this country, takes a benealt. An entire change of programme will be given, introducing many new features and we predict for the beneficiary a full and overflowing house-such a house as he eminently deserves. NATIONAL THEATER. - At the National, last

night, Mrs. Sinclair played "Marco," and Mr. Henry Sedley "Raphael de Chatelet," to a fair audience. The play of The Marble Heart is quite attractive in itself, and was rendered to the apparent satisfaction of those who witnessed it. It will be repeated this evening.

WOOD'S THEATER. - Cinderella drew a good house last night for the benefit of R. Bishop Buckley. To-night the programme consists of a pot-power of songs, dances, etc.; to con-clude with an original musical farce, in two acts, called The Two Pompeys. We predict a good house.

HOME INTERESTS.

DeGrath's Electric Oil.-This farfamed Oil bids fair to drive the cintment and bottles of that Cockney humbug, Holloway, out of the field. Holloway, it is said, keeps "a post on his premises," on the mean salary of fifty shillings sterling per week, whose business it is to write puffs for inserting in the English papers; and, "O, tell it not in Gath!" some of those concoctions are published in American papers also.

But here is Professor DEGRATH, a gentleman of Philadelphia, who stoops to no such kind of humbuggery for the sale of his own extraordinary invention-that of embodying electricity with the oil, for the cure of man and beast. He sells his production in the legitimate way, by respectable agents in every city and village of the Union; and if persons who have derived advantage from its use (feeling animated by a desire of testifying their gratitude), send him testimonials unsolicited, he is rather to be commended than blamed for giving them newspaper publicity-inasmuch as this is the urest method of making the benefits of his discovery known to suffering humanity.

We are informed-for, thank goodness, we know not what Rheumatism is yet-that this Electric Oil of Professor DEGRATH will cure Rheumatism, Neuralgia, Croup, Pains in the Back and Kidneys, Erysipelas, Inflammations and other like ailments. It has proved itself eminently serviceable to frosted Feet, in Hip diseases, Chills and Fever, Coughs, Earaches, Cramps, Hemorrhage, Spinal Complaints, Piles, Sprained Ankles, Deafness, Caked and Swollen Breasts, Enlargement of Elbow Joints, Burns and Scalds, Baldness, Gout, Eruptions of various kinds, and it has even been serviceable in straightening crooked or deformed hands.

Very many members of the Faculty daily use this Oil in their practice, several of whom have manfully come forward to bear voluntary testimony to its importance in the healing art.

It has been remarked, and quite truly, that it is a singular coincidence that Philadelphia, the scene of Franklin's discoveries, should also be the spot on which the first Electric Oil was introduced by Professor CHARLES DEGRATH, in 1851, for the relief and restoration of afflicted humanity.

The principal office is at 217 South Eighth street, Philadelphia; but the article is sold by druggists and merchants throughout the United States and the Canadas.

Strikers, Attention!-- As you pass up and down Walnut street, do not forget to call in and see ANDY STRYKER, at No. 235, just below the United States Hotel, and partake of the refreshments he has always on hand.
